ASL 3305 - In Search of Deafhood-Advanced Signing in Context - 4 cr.
Conducted solely in American Sign Language, this course is an overview of the history of Deaf people and their cultures from the time of Aristotle to contemporary society in order to understand the concept of colonization as an integral part of the "Deafhood" philosophy. That is, the development of a "deaf centered philosophy" in reference to this group of individuals since the traditional idea of "deafness" is seen as restrictive due to the colonization process. The focus will be on how societies have perceived Deaf people, and how those perceptions have shaped their destiny. This course will provide a background of Deaf people, especially as they relate to developing group and personal empowerment. All Deaf people journey toward defining and refining their "Deaf selves." Students will gain an understanding of these concepts through study of this journey from deafness to Deafhood. Following a historical trajectory, topics covered will include such things as education, Deaf organizations, social welfare, sports, religion, community support systems, and famous Deaf people in the arts and sciences.
