OJB 2201 - Intermediate Ojibwe Language & Culture I - 4 cr.

Explore and continue to learn grammar and culture of the Ojibwe. Dig deeper into concepts of traditional and seasonal practices while learning new forms of verbs. Complex grammatical structures become prominent as we dive into more complex conversations. We will be focussing on four main topics throughout the season. These topics will help you to converse and respond adequately to others about topics. While conversing about family and relationships, we will be going over structures such as possession and object noun use pertaining to VTI and VTA. In this way, grammar and discussion will be intermingled throughout the class. This course aims to further strengthen communication abilities and achieve broader knowledge of Ojibwe culture, expression, and worldview.

Prerequisite Courses: OJB 1112

OJB 2202 - Intermediate Ojibwe Language & Culture II - 4 cr.

Dive deeper into traditional and seasonal practices while learning new forms of verbs pertaining to Ojibwemowin. Complex grammatical structures become prominent as grammatical structures become more complex. We will be focussing on four main topics throughout the season. In addition to the four topics, we will be focussing on the skills needed to respond to them and how to elaborate on student responses. This course aims to not only further strengthen communication abilities, but also teaches complex grammatical structures pertaining to the advanced coursework.
