

ACADEMIC POLICIES

Students are responsible for knowing the academic policies of The College of St. Scholastica.

College policies consist of college-wide policies such as academic honesty, changing registration, student records, and release of information. Graduate and undergraduate policies consist of specific policies for students that differ between levels and include policies such as grade definitions, course load, and incomplete policies. Additional non-academic policies for undergraduate students can be found in the Student Handbook and graduate students can find additional non-academic policies within program handbooks.
