

ART MINOR

The Art Minor, like the Major, is grounded in developing artists and scholars who are compassionate global citizens, whose imagination and creativity lead the way to an environmentally and socially responsible future. The core of our studies center in art foundations and research, grounded in our Benedictine values, and rooted in the process of inquiry and creative expression.

Students can choose from five areas of concentration to focus their studies: Drawing and Painting, Design, Film and New Media, Photography, and Studio Art.
