

HEALTHCARE ADMINISTRATION, M.H.A.

PTH 7720 Health Policy 3

Also requires HCA 6777 - Healthcare Administration Capstone Project, 3cr.

The Master's of Healthcare Administration (MHA) degree prepares future healthcare executives and managers in management, strategic planning, budgeting, process improvement, business development, and data analytics to support the delivery of high-quality healthcare. The degree prepares management professionals across the healthcare industry including those that work in hospitals, nursing homes, physician private practices, residency programs, pharmaceutical and device manufacturers, consulting, government and public policy, and many more. Students will learn how to be effective healthcare leaders to manage the business of healthcare delivery, finances, and work effectively with diverse teams.
