

TRADITIONAL UNDERGRADUATE NURSING, B.S.

The Department of Nursing Traditional Undergraduate Nursing Track is an on-campus program that prepares students for entry-level professional nursing practice, including the health needs of underserved populations. This level of education is based on core knowledge and clinical competency applied through a unique blend of critical thinking, caring, communication and collaboration. Health promotion, illness management and population-based care are the focus of the traditional undergraduate curriculum. Students are prepared to practice holistically as leaders in healthcare delivery, with an educational foundation grounded in the Benedictine values. Throughout the curriculum faculty blend the use of simulation, technology and integrative therapies to prepare students as healers of the mind, body and spirit.

Application to the major requires a cumulative GPA of 3.0, at least a "C" in all required courses taken at CSS and at least a "C" in all required courses that are transferred.

Learning Outcomes

Upon completion of the Traditional Nursing track, the graduate will:

1. Synthesize knowledge from nursing, the arts and sciences, and the Benedictine values in the holistic practice of professional nursing.
2. Demonstrate values and behaviors consistent with professional nursing standards.
3. Demonstrate competence in utilizing patient care technologies and information system technologies in dynamic healthcare environments.
4. Integrate effective inter-professional collaboration into practice to enhance the health of all patients, including diverse and vulnerable populations.
5. Utilize knowledge of healthcare policy and evidence-based nursing to advocate for the quality and safety of patient care.

Requirements

Students must achieve the following program requirements for all courses listed under Program Requirements and Program Required Courses for the Traditional Undergraduate Nursing major.

Program Requirements

Major Credits: 83

Major Residency Credits: 16

Minimum GPA: 2.0

Minimum Grade: C

Program Required Courses

Code	Title	Credits
Required Pre-Requisite Courses		
BIO 2020	Microbiology	3
BIO 2510	Human Anatomy and Physiology I	4

BIO 2520	Human Anatomy and Physiology II	4
CHM 1040	General, Organic, and Biochemistry for Health Sciences ¹	4
ENG 1110	First Year Composition	4
PSY 2208	Lifespan Developmental Psychology	4
PSY 3341	Introduction to Counseling ¹	2
SOC 1125	General Sociology	4
or SOC 2125	Sociology of Health	
Nursing Core Courses
