

PROJECT MANAGEMENT CERTIFICATE

A Certificate in Project Management provides an introduction to project leadership and the project management process. The certificate prepares students to apply project management and leadership techniques to lead project teams. The curriculum includes an overview of leadership, the foundational project management practices, and agile project management methods.

The PRM 6110 Project Initiation and Planning and PRM 6115 Project Performance course requirements may be waived for students possessing a current Project Management Professional (PMP)[®] or Certified Associate in Project Management (CAPM)[®] certification from the Project Management Institute.
