

HEALTH INFORMATICS CERTIFICATE

The Graduate Certificate in Health Informatics is entirely online and focuses on introducing students to the core competencies of the health informatics profession. This program focuses on the application of computers to generate, validate, secure and integrate healthcare data so it can be effectively used to support the decision-making activities of clinical and administrative professionals.

This program is offered in a distance learning format and generally can be completed in three semesters or less. The courses that comprise this certificate program may also be applied to the department's master's degree program.

Learning Outcomes

Upon completion of the Graduate Certificate in Health Informatics, the student will:

1. Evaluate healthcare technologies, information systems, and processes to improve care.
2. Utilize data for healthcare performance and research.

Requirements

Students must achieve the following program requirements for all courses listed under Program Requirements and Program Required Courses for the Graduate Certificate in Health Informatics.

Program Requirements

Major Credits: 18

Minimum GPA: 3.0

Minimum Grade: C

Foundational course requirement: Inferential Statistics

Program Required Courses

Code	Title	Credits
HIF 6010	Foundations Health Informatics	3
HIF 6230	Human Factors and Usability Assessment	3
HIF 6537	Systems Design and Software Development	3
HIM 6505	Database Methods Clin Info Mgt	3
HIM 6508	Healthcare Data Analytics	3
HIM 6509	Medical Vocabularies and Classification Systems	3
Total Credits		18

Degree Requirements

To graduate from The College of St. Scholastica, graduate students must meet the following minimum degree requirements.

Minimum GPA: 3.0
